

Proudly Sustainable at Good Drinks

99% of product packaging is recyclable

Spent grain from brewing sent to local dairy farmers for feed & not to landfill

Spent yeast, hops and waste beers go into compost and biofuel production

Award winning water efficiency, use and tracking at our brewery

GDA was born out of a love for the coast and the good times it brings. As ocean lovers, and an Aussie producer it's our responsibility to care for our patch. We are committed to improving the sustainability of its operations and is guided by an Environmental, Social and Governance (ESG) framework.

Since 2021, we have funded annual Leadership Scholarships with Pink Boots (\$10k per annum) to support the development of future female leaders in the beer industry

Promoting containers for change recycling return on all packaging

Developed sustainability report that meets World Economic Forum framework

No single use plastics in any of our leading hospitality venues

In 2021 we launched our Partnership with the Australian Marine Debris Initiative to drive awareness around ocean plastics, including regular national beach clean-ups and regular fundraising
